

Summary

New Testament Church of God Willesden, have implemented a new Internet access protocol, effective immediately.

This new protocol has been implemented to:

1. Maintain stability of our streaming broadcasts
2. Protect the security of our systems
3. Protect children and vulnerable adults

NTCG Willesden reserves the right to restrict use of their Wi-Fi to only named people, ie. Ministry Leaders and their teams.

The Wi-Fi network password will be changed intermittently with adequate prior notification from the head of the media team.

Anyone who requests access to the Wi-Fi network will be required to present themselves to the Media room at the agreed date/time where the password will be entered into the device requiring access. You will be required to sign a form acknowledging that you will not share the WNTCG Wi-Fi password under any circumstances.

The Wi-Fi password will not be circulated via email or messenger to prevent the sharing of this access to those who are unauthorised.

Anyone who has been provided access to the Wi-Fi network **MUST** not under any circumstances, share or pass on the details without prior approval from Head of Media.

Logistics:

A. Wi-Fi Guidelines of Use

Before using WNTCG Wi-Fi, please read these guidelines. By clicking "Connect to the Internet," you agree to follow them.

Key points:

- "We," "our," and "us" refer to WNTCG.
- "You" refers to the Wi-Fi user.
- If you have any questions, contact media@wntcg.org or production@wntcg.org before agreeing.

1. Using WNTCG Wi-Fi

Availability – You can connect in WNTCG buildings using a compatible device, but we don't guarantee all devices will work.

Personal Data – Some personal information and device details will be recorded when you connect.

Website Access – We are not responsible for the content you visit or any security implications to your device as a result of your use.

Service Interruptions – We may suspend or stop the service at any time.

Security Disclaimer – The network is not secure. We are not responsible for data security or the accuracy of online information.

Safeguarding – To safeguard children's online experiences, individuals under the age of 18 will not be provided with the WNTCG Wi-Fi password.

Reviewing WNTCG Wi-Fi Passwords – We will change the Wi-Fi Password every three to six months. This will help us to:

- Maintain the stability of our streaming broadcasts
- Protect the security of our systems
- Protect children and vulnerable adults

2. Prohibited Activities on WNTCG Wi-Fi

You must not:

- Use the Wi-Fi for illegal or unlawful purposes.
- Disrupt, damage, or impair the network.
- Send viruses, harmful code, or offensive content.
- Violate others' rights, including confidentiality or intellectual property.

B. Wi-Fi Acceptable Use Policy

Prohibited Uses

You may only use WNTCG Wi-Fi for lawful purposes. You must not:

- **Store, send, or download** unlawful, offensive, defamatory, or abusive content.
- **Share confidential or copyrighted material** without permission.
- **Interfere with the network** or disrupt other users' access.
- **Engage in illegal, fraudulent, or unauthorised activities**, including hacking, spreading malware, or breaching privacy.
- **Send spam or unsolicited advertising** (violating the Privacy and Electronic Communication Regulations 2003).
- **Overload the network**, degrade service quality, or attempt unauthorised access to systems.
- **Harm minors or encourage others to break these rules.**

If you become aware of misuse, you must report it immediately.

Policy Updates

We may update this policy at any time.

Third-Party Websites

We are not responsible for privacy policies of websites you visit using our Wi-Fi.
